**mx** Mendix for Insurance

# Accelerate time-to-market, improve efficiencies, expand customer reach

## CHALLENGES FOR INSURERS TODAY:

x   Continually rising demand for digital experiences

x   Paper-based and Excel-based manual processes

x   Backlog issues with legacy systems

x   Disparate and costly tech stack with limited resources

## IS YOUR ORGANIZATION FUTURE-READY?

Reduce costs and improve CX in claims

Increase conversion rate in sales

Reduce complexities with underwriting and product development

Quickly and easily make and deploy changes to meet evolving regulatory needs

Integrate API/microservices

Build a solution that's uniquely yours

# Mendix for Insurance

## Insurers are modernizing with Mendix

### Build effective solutions across the enterprise

A Global 500 insurer used Mendix to deploy ten applications within a year, creating millions of dollars of business value. Use the Mendix platform to modernize legacy systems, digitize experiences across internal and external users, and improve operational efficiencies.

### Get more done faster

A Fortune 500 insurer built a best-in-class broker experience on the Mendix platform, which cut inproduct delivery time in half. They've since seen a 50+% increase in policies-in-force (PIF). Mendix makes creating dazzling new experiences for customers, employees, and third parties simple and straightforward.

### Maximize resources and accelerate roadmaps

A major insurer with 300 years of experience created and deployed an end-to-end underwriting and claims solution in under a year. That's just one example of Mendix users utilizing the platform to create automation and tie processes together across the enterprise.
